

## ANOTHER DAMPENER

On the Democratic Free Trade Calamity Howlers.

## MORE DEMOCRATIC TESTIMONY

As to McKinley Prosperity.—The Superintendent of the State Banking Department in New York Makes His Semi-Annual Report.—He is a Democrat and His Figures Are Official. They Show That There Has Been an Increase of Nearly Eighty-seven Million Dollars in the Savings Banks of the State Since Harrison Came in, Deposited by Working Men and Women.

Special in New York Tribune.

ALBANY, N. Y., August 29.—Most impressive and weighty testimony has just been given from an official source respecting the prosperity of the workingmen in New York state since President Harrison assumed office in 1889. The testimony comes innocently enough from Charles M. Preston, the Democratic superintendent of the state banking department. It is contained in his semi-annual statement concerning the condition of the state's savings banks on July 1 of the present year.

On January 1, 1889, or only two months before Mr. Harrison assumed office, there was due to the depositors in the savings banks of this state \$523,677,575. Large as this amount was, the workingmen have added to it millions after millions, until on July 1, 1892, it has risen to \$610,560,031.35. They have thus increased their funds in the savings banks in the course of President Harrison's administration \$86,882,456.35. Moreover, the resources of the savings banks have increased enormously. They amounted on January 1, 1889, to \$615,889,796, and on July 1, 1892, to \$701,112,873.48, or an increase of \$85,223,077. Mr. Preston furthermore reports that the savings banks have a surplus of \$90,257,330.81. It will be difficult for voters, under these circumstances, to recognize the "years of calamity" so graphically described by Democratic orators in giving a history of the Harrison administration. The savings bank depositors themselves do not seem to be aware of any reasons for melancholy or distrust for the future, for more of them than ever before have put money in the savings banks. There were reported to be 1,362,852 depositors in the savings banks on January 1, 1889, and July 1, 1892, it was reported that there were 1,556,133 depositors in the same banks. This increase in the number of depositors and in the total amount of their deposits is the more remarkable from the fact that the trustees of savings banks for four years past have been refusing to receive large deposits, or to pay interest on more than a fixed amount, and have thus prevented thousands of persons from putting their money in these banks. Furthermore, the rapidly increasing building associations in the cities diverted millions of dollars from the savings banks which would, in former years, have been put in these banks. Notwithstanding all these checks, as stated above, the increase in the liabilities to the savings bank depositors since January 1, 1889, amounts to \$85,223,077.35.

The magnitude of the operations of the savings banks can be appreciated when it is learned from Mr. Preston's report that the amount of interest credited and paid in the course of the six months ending July last was \$10,417,849.54. In the same period there was withdrawn from the savings banks the sum of \$90,614,152.95, and there was deposited the sum of \$110,032,008.23. The net increase of deposits accordingly was \$10,417,849.54. Inasmuch as this is the record of only six months of the present year, with the business world prosperous, it can be predicted that the net deposits in the savings banks of the state the present year will be \$20,000,000. For a state whose population is described by the Democracy as suffering from the burdens of the McKinley act and Republican legislation generally, this has the effect of a startling surprise. That the poor workmen should be able to make savings in six months amounting to \$10,000,000, exclusive of interest, is so astonishing that Democrats may be inclined to admit that it is at least possible that the tariff is not a tax, and that McKinley prosperity is not a figment of Republican hallucination.

## GROVER'S PROGRAMME.

He Will Vote in New York and May Make Some Speeches.

New York, August 31.—Mr. Cleveland, it is made known, will leave Buzard's Bay for good in the first week of October and will come to New York. He will register and vote in his assembly district, and will remain in the city from that time on until after election day. According to the present programme he will not take the stump. He may be induced to speak in several of the larger cities of the state, but it is not the plan to have him go beyond its borders. It is proposed soon after Mr. Cleveland has returned to town to arrange for a reception of the Democratic leaders similar to that which has been arranged for President Harrison at Ophir Farm to-day.

## IT WAS A PRETTY STORY

And He Told It to Get a Reward, but Now He Confesses to the Fraud.

Pittsburger, Pa., August 31.—A special to the Chronicle-Telegraph from Rochester, Pa., says: George W. Adams, the man who claimed to have saved the west bound New York and Chicago limited from being wrecked near Enon on the night of August 28 last, by removing a pile of ties from the track, has confessed to having himself placed the ties upon the track as a part of a scheme for obtaining a reward from the company. Adams, who is under arrest, it will be remembered, claimed to have found the ties on the track while on his way home, a few moments before the train was due, and that while he was removing the obstruction bullets were fired at him, one of which pierced his hat and the other entered his leg.

## She Committed Suicide.

Mrs. F. C. Boe, at Watkins, left this letter: "My husband—Forgive me if I cause you trouble, but I suffer so. You do not know what these long, wakeful, wretched nights are to me, and I am so tired, darling—the pain will never be better. It is not easy to take my own life, but I have been sick so long. Good-bye, my husband, I love you—your wife." This is but one of thousands that gives up, instead of using Dr. Miles' Restorative Nervine, and being speedily cured of their wretchedness. ## SENATOR ALLISON

Opens the Campaign in Iowa—The Two Party Platform Contrasted.

WAVERLY, IOWA, August 31.—The following is a summary of the speech delivered by Senator W. B. Allison at the opening of the campaign here this afternoon. After a brief reference to the candidates of the respective parties, Senator Allison said that he believed the Republican party would win the coming contest because its policies are such as to secure the confidence and support of the majority of the people of the United States, constitutionally expressed, if only that majority can vote and be fairly counted. The record of the present administration has been such as to inspire public confidence. Our complications with Chile were disposed of in a manner to reflect credit upon our country. Industries have been prosperous and many new ones have been established; our internal commerce has grown beyond reasonable computation; our foreign commerce has received a new impetus under the recent legislation of Congress, supplemented by a friendly administration; our trade, foreign and domestic, is in a healthy condition; our finances are in a healthy condition; our currency, ample in volume and uniform in value, is being steadily increased under the legislation of 1890.

He referred in detail to the record of the Fifty-first congress, to the revision of the revenue laws, and contrasted the work of that congress with the work of the Democratic house of representatives in the last session. The appropriations of the Republican house were compared with those of the Democratic house and the latter alleged to be much more extravagant. The Democratic party this year stands for free trade. There is no evasion or double dealing in its platform. It promises to repeal the McKinley law as one of the beneficent results of Democratic victory. Not only this, but that every shred and remnant of protection, incidental or otherwise, shall be torn up, root and branch. The Republicans accept the issue thus presented. The speaker denied that protection resulted in great private fortunes. Great fortunes are sometimes made, but they are the exception. It depended more on the individual than upon protection.

Referring to the money question he said this country would lose its power at once if it opened its mints to the free and unlimited coinage of silver. The free coinage of silver would place us with Mexico on silver standard and gold would be at a premium. Our people favor the free use of both gold and silver. "All parties have so declared in their platforms and they only represent public opinion but public opinion also neither as money shall be at a discount or premium."

Upon this question the Democratic platform is in accord substantially with the Republican, except that the Democrats propose an unconditional repeal of the law of 1890, which furnishes us a constant addition to our legal tender paper money of from fifty to sixty millions annually. They would substitute in its place state bank issues by repealing the 10 per cent tax on state bank circulation, thus providing forty four different kinds of money under as many state laws. This means the restoration of red dog, wild cat and all other pet names given to a depreciated state currency, so familiar to experiences over thirty years ago.

## Kicking Against the Crown.

LONDON, August 31.—The Chronicle this morning says: "Assuming that Mr. Labouchere's evidence is good, what unmitigated pedantry it is to pretend that the queen had nothing to do with the business. We are face to face with the theory that there are functions of the crown which our fathers did not tolerate and which we have the right to resent."

## BENWOOD.

Industrial Items, Personal Gossip and General News Notes.

Quite a pleasant reception occurred last evening at the residence of Mr. William Lineley, on Main street, given by his daughter, Miss Rosella. A large circle of her most intimate friends were present and the evening was delightfully spent in various amusements, enhanced by delicious refreshments served during the evening, to which all did ample justice. The costumes of the ladies were fine, many being in full dress.

Mr. Edward Lineberger is unable to work, owing to an abscess upon one of his knees. Mr. Lineberger is a machinist and it is frequently necessary for him to kneel on one knee, the one that is troubling him, and it is possible that he may not regain the proper use of that limb owing to this fact.

Mr. Corday, a popular engineer on the B. & O. railroad, and Mrs. Steel were united in the bonds of marriage at St. John's church yesterday at 8 o'clock a. m. The ceremony was performed by the rector, Rev. Father McManman, at the conclusion of which they were driven to Wheeling.

The trustees and teachers of the public school held their first meeting for the year at the school building last evening. The regular routine business was transacted, which included among other things, the signing of the teachers' contracts for the year.

The little son of Prof. R. A. Biggs, principal of the public school, who was badly scalded about two weeks ago by upsetting a pail of boiling water on himself, is getting along nicely.

## STARTLING.

This Has No Uncertain Sound.

What Does This Mean to Our People?

IT RINGS WITH A GREAT AND GRAND HOPE.

Something Thousands Are Seeking For.

A FACT OF MARVELLOUS IMPORT TO ALL.

Newburg, N. Y.—A telegraph dispatch from Newburg, N. Y., reveals the fact that a most marvellous change has taken place in the person of one of its oldest and best known citizens. H. S. Shorter, Esq., is an old man of 75 years and lives at 391 Broadway, Newburg, N. Y. It appears that Mr. Shorter, who was an extensive lumber dealer, began to grow languid, got tired easily, was nervous and debilitated, until at last he became so weak and exhausted that he was just able to drag himself around. He lost flesh and strength so rapidly and became so alarmingly prostrated that his friends and relatives despaired of his life.

Now came the marvellous change. Suddenly Mr. Shorter was transformed from his condition of extreme weakness to one of strength; his nerves grew quickly strong and steady, his muscles became vigorous, his blood was revived and enriched, he gained fifteen pounds in weight, and to-day is in sound and perfect health.

Such a remarkable transformation in a man of his age was a "wonder" indeed.

Of course the cause was eagerly looked for.

Your correspondent, determined to know the truth for the paper's readers, listened to the following astonishing facts from Mr. Shorter's own lips:

"I feel now like a new man!"

"What do you think of taking an old man of 75 years, physically weak and broken down, and making him feel like a boy again? Giving him new life, health and strength, and adding fifteen pounds of solid flesh to his weak and debilitated frame!"

"And all in two months, with three bottles of Dr. Greene's Nervura blood and nerve remedy! Well, that is just what has taken place in me. Instead of being weak, debilitated and exhausted, just able to drag myself around, I feel now now like a new man!"

"I advise all to use Dr. Greene's Nervura blood and nerve remedy!"

"Surely this wonderful remedy is a most marvellous health restorer, and without doubt, the greatest medical discovery of the age."

If it can thus give back health and strength to an old man, weakened and exhausted by disease, how much more surely and certainly will it cure the thousands who are run down, weak, nervous and prostrated, who suffer from poor blood, weak nerves, dyspepsia, indigestion, constipation, malaria, kidney and liver complaints, etc. For debility it is a speedy restorer of strength and vigor. If you are run down in health and need a medicine to strengthen the nerves, invigorate the blood, tone up the stomach and regulate the bowels, kidneys and liver, Dr. Greene's Nervura blood and nerve remedy, which is purely vegetable and harmless, and is the best remedy known in the world.

Use it, for it will restore your health and strength. You can get it at any druggist for \$1. It is the discovery and prescription of the well-known and successful physician, Dr. Greene, of 35 W. 14th St., New York, the eminent specialist in the cure of nervous and chronic diseases, who can be consulted free, personally or by letter.
